Vision

To be the leading One-Stop Centre for Flow Control Solutions and Power & Energy Systems through sustainable and innovative solutions.

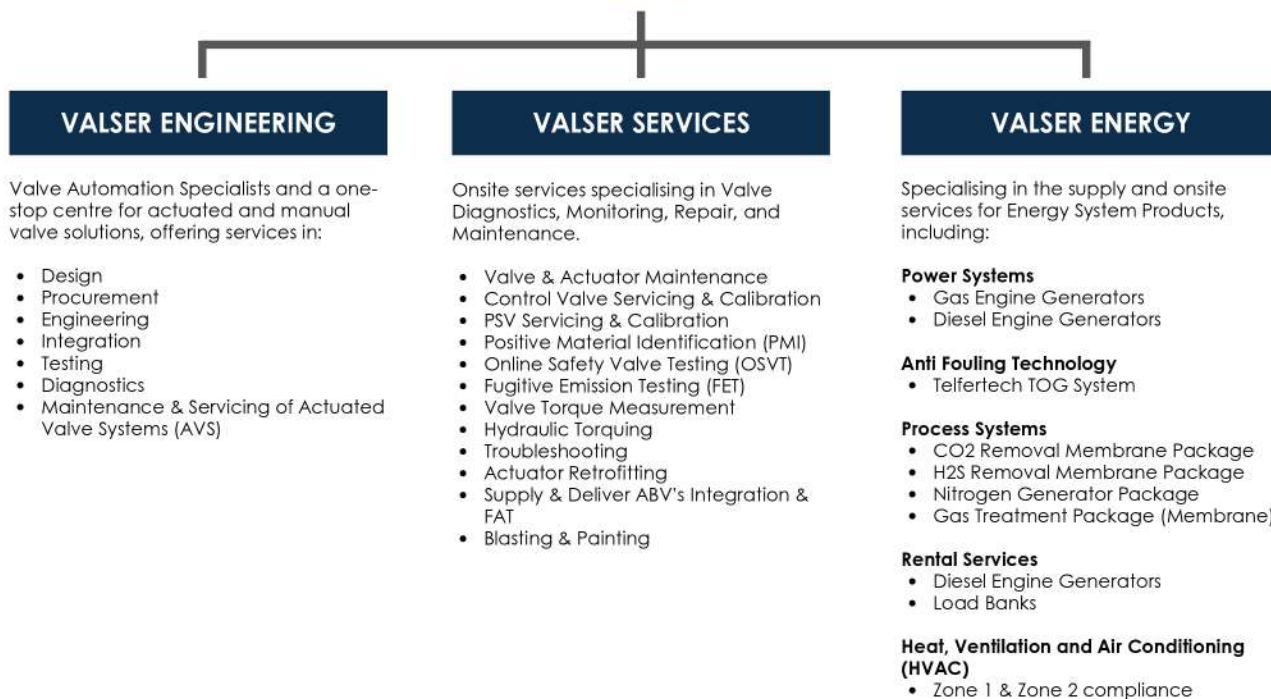

Mission

- To provide engineering expertise and innovative products & solutions to our clients.
- To provide our clients with unparalleled service and support, fostering long-term partnership built on trust, integrity and reliability.
- To ensure cost-effective and on-time deliveries whilst maintaining the highest quality, standards and workmanship.

VALSER SYNERGY SDN. BHD.

GROUP OF COMPANIES

VALSER SYNERGY SDN BHD (formerly known as Valser Oil & Gas Sdn. Bhd.) was incorporated in 2002 with the objective of providing vision, mission, strategies, corporate governance, finance, policies, and administration to its Group of Companies.

As a group, we strive to be the top "One-Stop Solution Centre" in Malaysia and the Asia Pacific region specializing in the supply and servicing of valves, actuators, and controls for exploration and production equipment across the Oil & Gas (O&G), Energy, Defence & Maritime, Port, and Petrochemical industries.

Valser continuously researches, develops, and implements new technologies, products, and services to enhance our capabilities and better serve our clients.

VALSER ENGINEERING specialises in valve automation and acts as a one-stop centre for actuated and manual valve solutions. Focusing on Actuated Valve Systems (AVS), we offer services such as design, procurement, engineering, integration, testing, diagnostics, maintenance, and servicing, all delivered with Single Point Responsibility (SPR) and Total Warranty.

VALSER SERVICES specialises in servicing, diagnostics, monitoring, repair, and maintenance of valves and actuators for the Oil & Gas (O&G), Energy, Defence & Maritime, Port, and Petrochemical industries. Our services are available both on-site and off-site within our wholly owned workshops strategically located around Malaysia's O&G hubs.

VALSER ENERGY serves as a single-source provider for the supply, on-site services, and after-sales support of energy system products. Our offerings include Power Generator Systems, Solar & Uninterrupted Power Supply (UPS), HVAC Systems TOG Anti-Fouling Technology, and Rental Services for Diesel Engine Generators and Load Banks.

FS 575274

OHS 789428

At Valser, we are committed to upholding the highest Health, Safety, and Environment (HSE) standards across all our operations.

Our accreditations, including ISO 9001:2015 for quality management (since 8th July 2011) and ISO 45001:2018 for Occupational Health and Safety Management Systems (since 29th August 2023), reflect our unwavering dedication to the safety, well-being, and sustainability of our people, operations, and the environment.

Our HSE Commitment Includes:

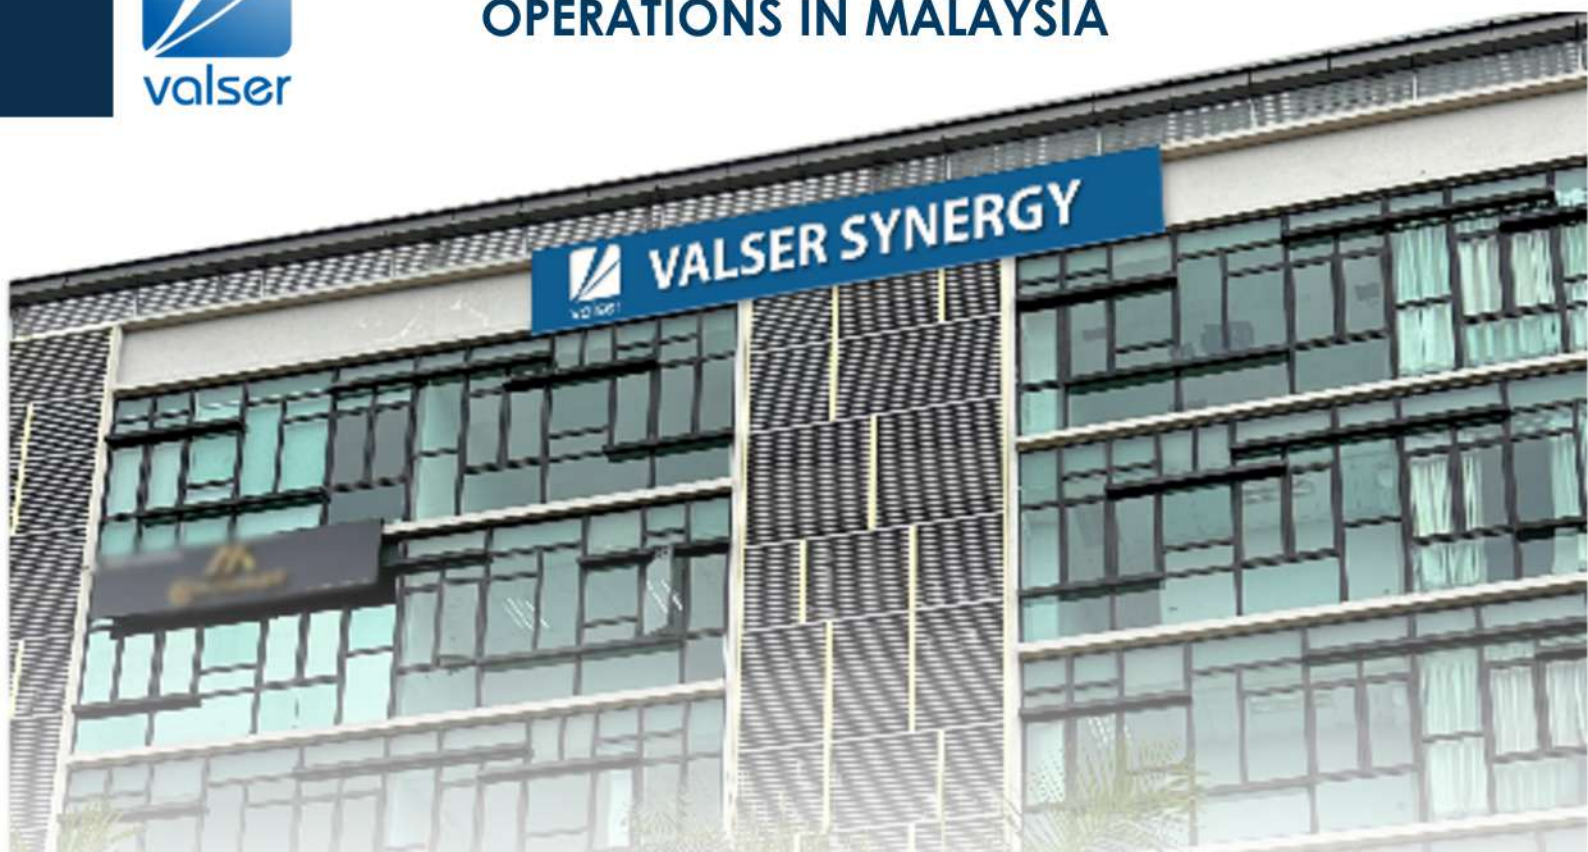

- Ensuring compliance with all legislative requirements related to Health, Safety, and Environment.
- Demonstrating strong leadership to achieve operational and HSE excellence.
- Developing, implementing, and regularly monitoring an annual HSE strategic plan.
- Promoting HSE awareness at all levels of the organization.
- Fostering a strong and sustainable HSE culture throughout our operations.

With over 20 years of experience in servicing, repairing, and refurbishing valves and actuators, our Actuated Valve Systems (AVS) undergo thorough testing before leaving our facility. Our capabilities extend to performing jobs both on-site and at our strategically located facilities across the region.

Our technical staff possess a wealth of experience and knowledge to support our clients with AVS and their related components. Our services include:

- Consultancy for valve design (including ball valve seat design and material selection).
- Actuator sizing and selection to suit operational requirements.
- Control system design for optimized functionality.
- Operational assessments of valves and actuators using advanced diagnostics, monitoring tools, and portable leak detection equipment.
- Guidance on valve and actuator testing requirements.
- Recommendations for effective valve and actuator repair methods.

CORPORATE HEADQUARTERS

Our corporate headquarters houses the Management, Engineering, Project Management, Sales & Marketing, Finance, Human Resources, Corporate Planning, and Administration departments.

VALVE AUTOMATION & SERVICE CENTRES

As a *One-Stop Solution Centre* for valve manufacturing, supply, and servicing in Malaysia and the Asia-Pacific, we have integration facilities in Sepang, Teluk Kalong, Bintulu, Labuan, and Pengerang (coming soon).

Our state-of-the-art facilities house operations, production, and service teams under one roof, with assembly, integration, testing, and warehousing areas featuring high-lifting capacities (up to 35 tons) to enhance productivity, quality, and safety.

OPERATIONS IN MALAYSIA

VALSER CORPORATE OFFICE (HQ)

Address:

Unit N-1-06, 1st Floor, Connection Commercial,
Persiaran IRC 3, IOI Resort City, Putrajaya
62502 Sepang, Selangor.

Phone: +603 - 8605 8900

SEPANG (SERVICE CENTRE)

Address:

No. 23, Jalan Cipta Serenia 1,
Pusat Perindustrian Cipta Selatan, Bandar Serenia,
43900 Sepang, Selangor.

Phone: +603 - 8705 8000

TELUK KALONG (SERVICE CENTRE)

Address:

Lot 9489, Kawasan Perindustrian
Teluk Kalong,
24000 Kemaman, Terengganu

Phone: +6011 - 5121 0577

LABUAN (SERVICE CENTRE)

Address:

Lot 13, Industri Kecil & Sederhana (IKS)
Jalan Ranche-Ranche,
87000 Labuan, Wilayah Persekutuan Labuan

Phone: +6087 - 418 880

BINTULU (SERVICE CENTRE)

Address:

Lot 37 (2898), Blok 20,
Kemena Land District, Jalan Seberkas,
97000 Bintulu, Sarawak

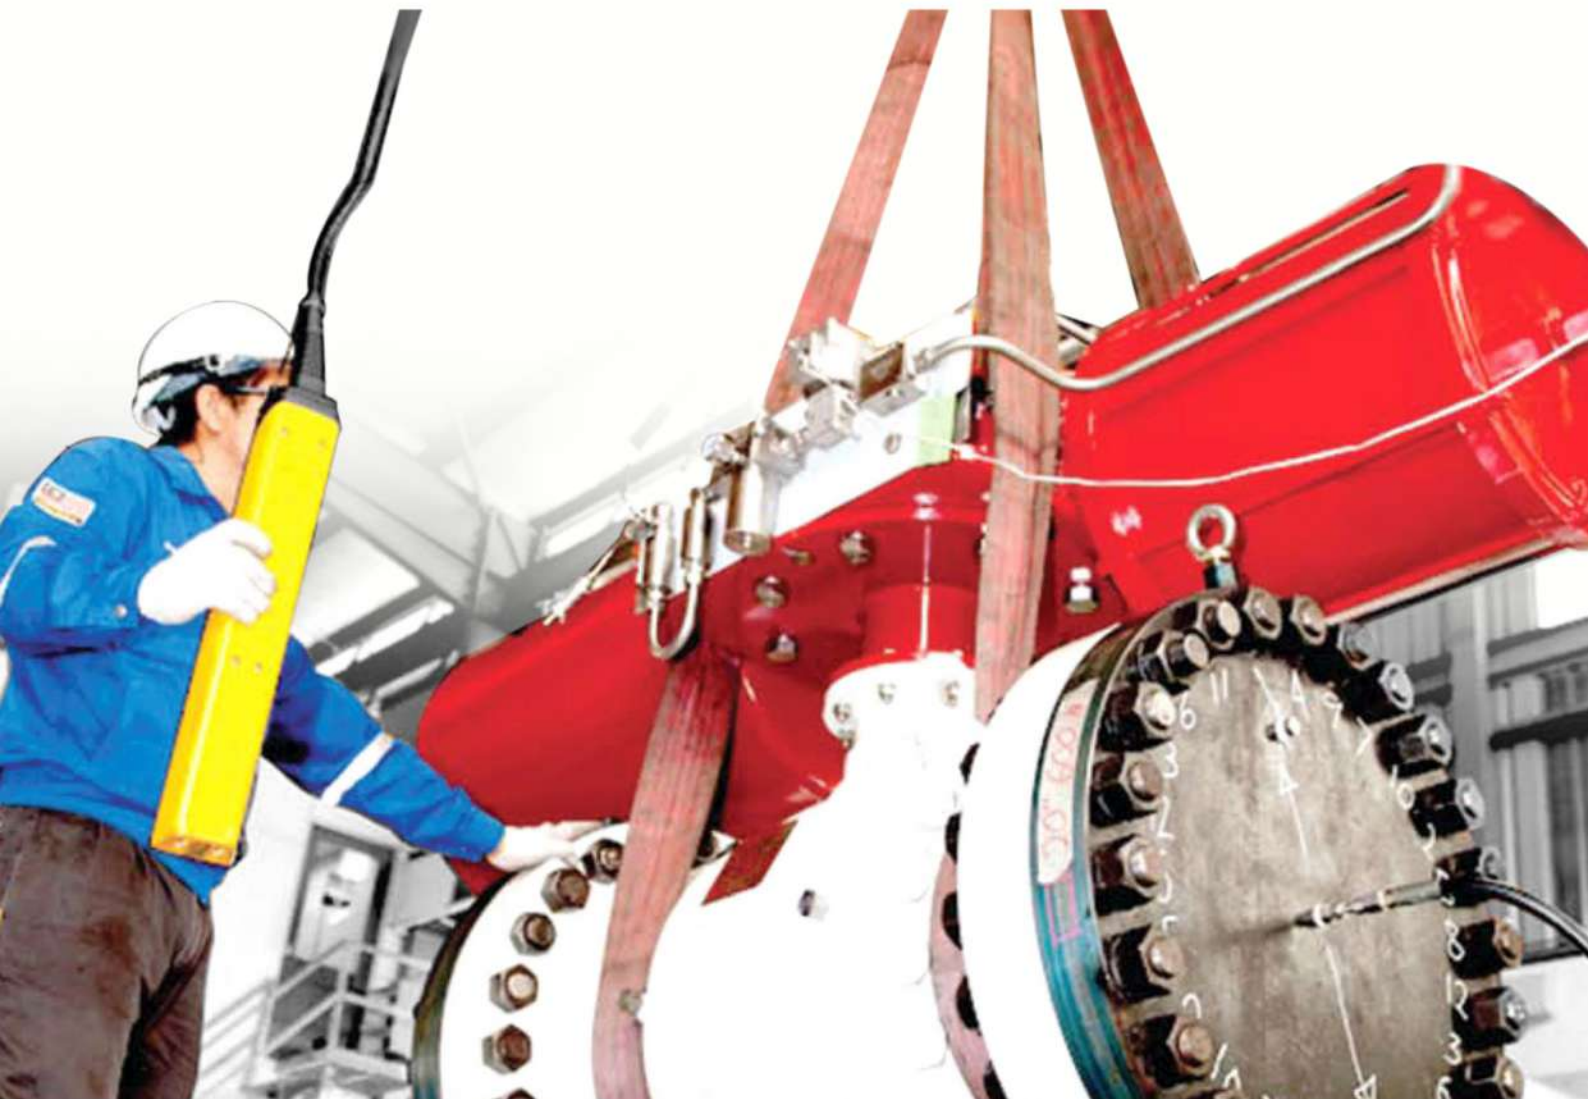

Phone: +6017 - 203 2306

PENGERANG (SERVICE CENTRE)

Estimated Date of Completion: 2025

OUR SUBSIDIARIES VALSER ENGINEERING SDN. BHD.

Valser Engineering Sdn. Bhd. is a Valve Automation Specialist with extensive expertise in the design, procurement, integration, and testing of Actuated Valve Systems (AVS). Backed by a team with over 20 years of combined experience, Valser Engineering delivers reliable and innovative solutions for all AVS needs.

OUR SUBSIDIARIES

VALSER SERVICES SDN. BHD.

Valser Services Sdn. Bhd. specializes in the maintenance and servicing of valves and actuators, supporting a wide range of industries including *Defence & Maritime* operations. With a highly skilled and experienced workforce, Valser Services offers the following range of services:

- Valve & Actuator Maintenance
- Control Valve Servicing & Calibration
- PSV Servicing & Calibration
- Positive Material Identification (PMI)
- Online Safety Valve Testing (OSVT)
- Fugitive Emission Testing (FET)
- Valve Torque Measurement
- Hydraulic Torquing
- Troubleshooting
- Actuator Retrofitting
- ABV Integration & FAT (Supply & Delivery)
- Blasting & Painting
- Mechanical Valve Servicing

OUR SUBSIDIARIES

VALSER ENERGY SDN. BHD.

Valser Energy Sdn. Bhd. specializes in the supply of parts and field services for the following areas:

Power & Control Systems

- Gas Engine Generators (including Yanmar 20kW with 10,000 hours maintenance-free operation)
- Diesel Engine Generators
- ComAp Gen-Set Control Systems
- Solar-Powered UPS Solutions

Uninterruptible Power Supply (UPS)

- Available in offline and online configurations
- Suitable for hazardous area applications

Heating, Ventilation, and Air Conditioning (HVAC)

- Custom-designed and built to specific requirements
- Suitable for hazardous area applications

Innovative Anti-Fouling Marine Technology

- TelferTech TOG System
